OUR CROFT EASTER LILY PLANTING

Woodriff, Leslie

# FAIRYLAND BEGONIA AND LILY GARDEN

HARBOR, OREGON

# EASTER LILY GROWING

## OUR BUSINESS AND YOURS.

We are growing this season about nine acres of Easter lily bulbs in the best part of the Brookings-Harbor lily district. From them we expect somewhere over 50,000 commercial bulbs of 7 inch or over circumference. Over 40,000 of them will be True Croft. Three thousand will be Croft Special, another selected clone that has similar growth to Croft but with slightly shorter leaves, darker green color. It also has an average of two more flowers to a seven inch bulb though slightly smaller than Croft and requiring either a few degrees higher temperature or a longer time in forcing. Under the same treatment as Croft it is around 10 days later.

The Kenyon Davidson is probably what is left of a group of 30 or 40 seedlings after Croft, C. Special and Estate were taken out. They flower over a longer period and most of them carry more flowers than Croft with very similar growth. We should have nearly 7000 7" and up. *These all make fine garden lilies. Very valuable for summer cut flowers.*

Perhaps some notes from the Ohio State Florists Association Bulletin for June, 1945, might be of interest to you:

## EASTER LILY TESTS

"During the past season about 60 lots of lilies were grown at Ohio State University greenhouses comprising Croft strains, Creole, Estate, Mexican, Giganteum, Ace, Coos, Kenyon-Davidson, which were sent for trial by the following brokers: Vaughan's Seed Store, American Bulb Co., Alec Henderson, Fred Gloeckner Co. and Fight Floral Co.

The General conclusions from these tests are:

1. Croft and its strains in general are the best pot lilies.
2. All lilies may be started in a temperature of 60-65 without placing in a cold house prior to forcing.
3. For early Easter, precooling of Crofts, Estate, Coos, at 40 to 45 for three weeks is necessary, although bud count will be reduced.
4. Estate, Creole, Mexican make good cut lilies. Of these Estate gives the highest bud count with Oregon Creole next, followed by the Mexican and Louisiana Creole last.

More specifically:

## CROFT

1 Oregon and northern California strains produce higher bud count and are much shorter than Louisiana, Florida and Washington grown. (*This statement is important.*)

2. The expected bud count is about as follows:

6-7— 2 buds	7- 8—4-5 buds
7 —3-4 buds	8- 9— 6 buds
	10-12— 7 buds

3. The height varies from 15-24" Oregon grown; 30 or more southern grown. (*Another important statement.*)

4. Louisiana Croft, if planted in September will flower early in January.

5. Storage at 40-45° has a tendency to reduce bud count but permits later planting. Thus Crofts planted early in November and those stored for four weeks in 40° and planted in early December flowered about the same time—Easter.

## KENYON DAVIDSON

Excellent short growing lily with high bud count. 8-10" size planted November 18, flowered in 60-65° temperature at Easter. Height 17.5 inches; bud count 5.5.

## GLOECKNER B STRAIN

Excellent short growing lily. High bud count. 8-9" size planted November 18, flowered for Easter. Height 18.5 inches, bud count 6.5. Cooled for three weeks the same variety was planted December 9 and also flowered for Easter. Height 18 inches, bud count 6.6.

## CREOLE

Good for cut. Grow cooler (50-55°). This will reduce blasting and thus increase bud count. Don't crowd. 6-7" size will give 2-3 flowers; 7-8" size 3-4; 8-9" size 4-5. September planting may be flowered in December. December planting will make early Easter. Cold storage at 40° does not reduce bud count unless stored longer than 4 weeks. Oregon grown Creole is shorter than Louisiana. Started in middle of December the Oregon grown will make Easter at 60° with stems 24 inches long and better bud count than southern grown.

## MEXICAN

Grown at 60-65° without *much fluctuation in temperature splitting is reduced to the minimum. Fertilization during the growing period will reduce the percentage of blasts.* Cold storage at 40-45° reduces bud count and increases blasting. With storage mid-December planting will make early Easter. 6-7" size gives only 1-2 buds. 7-8" size 3-4 buds.

## ESTATE

Too tall for pot plants. Precooling at 40° for 4-6 weeks decreases length of stem and also bud count, but early Easter may be made at 60-65°. Louisiana grown is early, but must be properly ripened to flower. 7-8" size bud count 5-7. Height normally 36-48 inches.

LESLIE WOODRUFF  
FAIRYLAND BEGONIA AND LILY GARDEN  
HARBOR, OREGON

Dear Friend:

We are truly sorry we are unable to publish the color catalog we had planned for this year. Have finally been able to get more employees with knowledge of plants and plant growth so we hope to broaden the scope of begonia growing and propagation as the months progress. We are again propagating fibrous begonias in quantity. In ordering begonias please state purpose for which they are being used--that is--pot plants, dish gardens, etc. and we will try to send plants suitable for your purpose. If you prefer any special plants please state their names or description as we have limited stock of many varieties that aren't listed in the catalog. In ordering please state the method of shipment preferred. We often ship via air freight. If you wish air freight shipment please give nearest airport.

We are offering the following Rex and Fibrous Begonias for immediate shipment:

OUTSTANDING POT PLANT VARIETIES

This collection includes several semperflorens and several free flowering easily propagated fibrous begonias including Geneva Scarlet Beauty, Baby Pink, Snowblush 101, all double flowering semperflorens, Tea Rose, OADI, Odorata Alba, Dichroa x Glaucocephala Scandens, Isoptera and others. All are named and labelled varieties for \$20.00 per 100, 50 at 100 rate, F.O.B. Express, 25 plants prepaid parcel post. \$7.00

DOUBLE SEMPERFLORENS

This collection includes Baby Pink--light pink, low growing very bushy plant, Geneva Scarlet Beauty--double red, Snowblush--white, carmine center, 101 tall growing deep pink with double flowers 2" across when fed properly, an outstanding addition to double flowering semperflorens group. We have two new double semperflorens we are putting on the market for the first time. They are Pink Giant and Red Giant. They have pointed glossy green leaves with slight red shading in leaf and are very bush growers with large double red or pink flowers. One each of these will be included in the double semperflorens collection. \$20.00 per 100 50 at 100 rate, shipped F.O.B. express. 25 plants prepaid parcel post \$7.00

We will soon have the new double semperflorens Pink Giant and Red Giant in quantity production so please write for quantity prices if you are interested.

UNUSUAL FIBROUS BEGONIAS

This collection of plants consists of star and rhizomatous begonias, tall growing varieties, basket types, and other unusual begonias including Coral Rubra, Coralline Lucerne, Luxurians, Dwarf Haageana, Foliosa, Floridunda Rosea, Sunderbruckii, Sunderbruckii x Autumn, Carol Star, Rubella, Pearli, Manicata x Imperialis, Glabra Glaucocephala Scandens, or Ivy Begonia, Jimmie Decker, Recinifolia, Evansiana x Cathayana, Scharffiana, Alto da Serra, Alto Scharff, Ruby Jewel Calla 10 to 15 named and labelled varieties in this collection selling for \$25.00 per 100, 50 at 100 rate shipped express F.O.B. Harbor, Oregon. 25 plants shipped prepaid parcel post \$7.50.

STAR AND RHIZOMATEOUS BEGONIAS

These are the outstanding low growing house plant types that have given many years of satisfaction in the house along with a few of our new crosses. Stock is sometimes limited but right now we have plenty on hand. Included in this collection will be Sunderbruckii, Sunderbruckii x Autumn, Sunderbruckii x Verschafeltii, Carol Star, Recinifolia, Jimmie Decker, and others. \$25.00 per 100, 50 plants at 100 rate Express F.O.B. Harbor, Oregon. 25 plants shipped prepaid parcel post \$7.50.

RARER FIBROUS AND FIBROUS HYBRID BEGONIAS

We have limited stock of some of our Fibrous Tuberous crosses including Ever Red Ever White, Red Glory, Pink Glory all of which have 2 inch double flowers on ever green foliage everblooming when kept above 60 deg. year round day and night temperature as the minimum. Ivy Ever and Elsie Frey are tuberous fibrous hybrids also with single flowers both are basket plants and very lovely. We also have limited stock of some of the harder to get and more difficult to propagate Fibrous Begonias including Templini, Tingley Mallet, Pink Spot Lucerne, Imperialis, Diadema, Olbia, Cathayana. A limited quantity of these plants can be included as samples in the UNUSUAL FIBROUS COLLECTION by varying the number of plants sent in that collection or we can ship 50 plants for \$25.00 F.O.B. Express Harbor, Oregon or 25 plants \$15.00 prepaid parcel post or 25 plants \$12.50 Express F.O.B. Harbor. 10 plants prepaid parcel post \$6.00. Please state definite number of plants desired and method of shipment preferred. More varieties will be available in this collection as the months progress.

### SPECIAL BEGONIA VARIETIES FROM CHINA

Just before the Reds took over the Yunnan Province in China we were able to get an air mail shipment of begonia species either unknown in begonia world or previously lost to begonia lovers. We have sufficient stock now of a few to offer limited quantities of them. Will have more later as the months progress. We have the following ready for sale:

Aptera--tall growing to 3 ft., long narrow saw tooth edged leaves, flowers white  
Augustina--notched green leaf, pink flowers, low growing.

Circumlabata--palmate green leaves; rhizomatous, leaves come directly from rhizome on ground large grower but quite interesting, white flowers.

Hemsleyana--the most interesting specie we have available now in this China shipment. Many slender completely divided leaflets make up the olive green leaf, rhizomatous and a very interesting plant. Grand pot plant.

Since our stock is so limited of these varieties and as far as we know they are not available elsewhere we are asking 75¢ each for these plants. They can be shipped via parcel post or express. Please state which you prefer. We can supply 25 plants postpaid parcel post for \$20.00 or \$18.75 if you wish them express F.O.B. Harbor, Ore. We can ship 10 plants \$8.50 prepaid parcel post! These can be included in some of the above collections by varying the number of plants sent if you wish. Another new one called Versicolor will be available in the months to come and to our way of thinking is one of the loveliest begonias we have.

We have a few varieties that we have sufficient stock to offer as single varieties and we feel they are well worth separate listing. They are as follows:

Griffithi--a rather tender specie that should be in every begonia fan's collection. It is truly lovely with its green shading and red veining making outstanding velvety leaves on low rhizomatous growth. Superb pot plant admired by everyone who sees it here. 25 plants \$10.00 prepaid parcel post or express F.O.B. Harbor, Oregon \$7.50.

Imperialis--low growing small plant. Round leaf brownish green. Hairs are on little pimples and give the leaf the appearance of velvet. Clusters of white flowers held above the foliage. A very attractive plant but a little touchy to grow. 10plants prepaid parcel post \$6.00 or shipped express in some of the above collections.

Orange Rubra--Orange flowered Angel Wing Begonia. The bright orange flowers are a new color in the sturdy Fibrous Begonias that grow so well in the house or lathhouse. Our most outstanding fibrous hybrid. They can be ordered separately or in collections listed above. New low price \$30.00 per 100 50 at 100 rate, F.O.B. Harbor, Oregon, 25 plants prepaid parcel post \$10.00 or Express F.O.B. Harbor \$7.50.

Pink Spot Lucerno--cross between Coralline Lucerno and Dichroa that in place of the normal silver spotting on the dark green leaves had lovely pink spots. It is much shorter than Lucerno, growing only 3 to 3½ ft. tall. Flowers are in slightly smaller clusters and a darker color--light red. It is greatly admired by our customers who see it here. We believe this is one of the most interesting groups of crosses for house plants that can be made. 25 plants \$10.00 prepaid parcel post, \$7.50 F.O.B. Harbor, Oregon via express 10 plants \$6.00 prepaid parcel post or they can be included in the above collections by varying the number of plants.

### REX AND FIBROUS COLLECTION

For those who want Rex and Fibrous as samples for trial we offer this Rex and Fibrous Collection. Plants are from the various collections described above. 10 to 15 labelled varieties at \$25.00 per 100, 50 at 100 rate F.O.B. Harbor, Oregon. 25 plants \$7.50 prepaid parcel post or \$5.00 F.O.B. Harbor, Oregon via express.

### REX BEGONIAS

Our West Coast Customers and many of our Eastern Customers tell us that we have the finest color in our Rex Begonias that is available on the coast anywhere. It must be true as the orders come in faster than we can fill them. We will guarantee the best service possible and the earliest filling of your order that stock permits. We have some new employees that will permit further hybridization and more extensive propagation on the rexes now. We give a good color range in filling our orders and we label each variety. It takes too much space to describe the many varieties of Rexes that we have but we expect soon to have a descriptive list written that will be separate from this list but available to anyone interested in it. The Rexes come in a multitude of color variations and combinations from pure silver to black with red and green combinations on flat or spiral leaves. The varieties include Helen Lewis, Curly Fireflush, Corderoza Gardens, Bronze King, Mountain Haze, Curly Carnot, Curly Stardust, Crimson Glow, Pacific Sunset, Pinkie, Dusky Rose, Black Giant, IT, Silver Sweet, Silver Green Heart, Rose Marie, Improved Countess Erdody, Mikado, Single Bronze Twist, Emporer, Edna Edwards, Lavender Glory, Crimson Glow, Silver Pink, Pink Flush, Her Majesty, Princess of Hanover, Crinkles, Brookings Fog, President Carnot, Fireflush, and a group of unnamed seedlings that are worthy of being grown but we considered not quite up to standard for a named variety. They are all well

grown plants. They may not all be available at once so please give your preferences and we will do our best to send what you want or a near substitute if not stock of your choice is available. These are selling for \$20.00 per 100, 50 at 100 rate F.O.B. Harbor, Oregon via express 25 plants via express \$5.00, 25 plants prepaid parcel post if \$7.50.

#### REX SEEDLINGS

For those who would want Rex Seedlings separately we have a nice selection of plants now that are well grown and lovely colors and many spiral types but they do not come up to our standards for a named variety so we are selling them as seedlings though we have propagated many of them. They sell for \$20.00 per 100, 50 at 100 rate, 25 for \$5.00 shipped F.O.B. Harbor, Oregon via express or \$7.50 prepaid parcel post.

#### NEW AND SMALL LEAVED REX HYBRID BEGONIAS

We have a strain of Small Leaved Begonias that are more difficult to propagate and more highly colored than most of the above mentioned varieties. They are very suitable for pot plant culture and with their brighter color combinations they work up beautifully in dish gardens or pot combinations. This part of the collection includes Baby Rainbow, Peacock, Our Indian, Calico, Lucy Closson, Glory of St. Albans Black Diamond, Lavender Glow, Painted Lady, Purple Glory, Lavender Star, Oregon Sunset and others. \$30.00 per 100, 50 at 100 rate, 25 plants \$8.00 F.O.B. Harbor, Oregon shipped via Express. 25 plants shipped parcel post prepaid \$10.00.

#### VERY NEWEST OUTSTANDING REX INTRODUCTIONS

We have a very limited stock of some of our Very Newest Outstanding Rex Introductions including Silver Glow, Lavender Ruffles, Purple Curly Stardust, and several others that are being propagated. We are offering these at 60¢ each, 50 plants \$25.00 25 plants \$12.50 F.O.B. Harbor Oregon shipped express. 25 plants shipped via parcel post prepaid \$15.00, 10 plants shipped parcel post prepaid \$6.00. Some of these can be included in any of the above collections and the number of plants can be adjusted accordingly.

CURLY FIREFLUSH--We consider this variety well worth special mention and separate listing. It is a spiral or curly sport of Fireflush or Baron Rothschild. Green background with red hairs giving the appearance of red velvet. Very lovely in dish gardens and combination pot gardens. A must for every begonia collection. Fireflush as it stands is one of the most popular Rex Begonias in existence and our sport with as good a curl as Countess Erdody makes this one of the finest Rexes in cultivation. We are now offering this took at the lower price of \$20.00 per 100, 50 at 100 rate. 25 plants \$5.00 F.O.B. Express, Harbor, Oregon. 25 plants shipped parcel post prepaid--\$7.50.

We now have enough stock of OREGON SUNSET to offer it as a separate and very new outstanding Rex Begonia in an especially nice spiral. It has a silver center with lavender overlay, green white speckled border and wine colored edge. 50 plants for \$15.00, 25 plants \$8.00 F.O.B. Harbor, Oregon via Express, 25 plants shipped prepaid parcel post \$10.00, 10 plants shipped prepaid parcel post \$3.75.

LAVENDER RUFFLES--is another outstanding new rex--not a spiral. It is a silver leaf with tiny dark center overlaid with lavender. Whole leaf glistens as though it were covered with tiny beads. It is an exquisite contrast for the darker Rex leaves. 25 plants \$8.00 F.O.B. Harbor Oregon via express, 25 plants prepaid parcel post \$10.00, 10 plants shipped prepaid parcel post \$3.75.

IT--One of our hybrids which makes an especially popular florist plant as well as window garden plant. IT grows about 14 to 16 inches high with medium-sizes bright green Rex leaves with silver spots and is very well branched. IT carries a cluster of flowers from every joint with individual clusters stringing their flowers out one after the other to as much as 30 in a four branched cluster, making sometimes over 100 flowers from each cluster over a period of several months. The plants are a literal shower of flowers. The lovely pink flowers are carried well above the foliage and they have a delightful fragrance between a rose and a freesia. IT flowers the year around but is best from December to May. Requires a little more heat and more regular feeding than most rexes. \$20.00 per 100, 50 at 100 rate, 25 plants \$5.50 Express F.O.B., Harbor, Oregon, 25 plants \$7.50, 10 plants \$2.75 prepaid parcel post.

REX BEGONIA SEED--We hand pollinate all our Rex Begonia seed and sell limited quantities of it. We try to select the best colored types and crosses. It sell \$1.00 per packet, \$1.50 per trade packet.

We have books written by some of the outstanding authorities on Begonias in America  
BEGONIAS FOR AMERICAN HOMES AND GARDENS by Helen K. Kraus--1947 \$4.00  
BEGONIAS AND HOW TO GROW THEM by Bessie Buxton--1946 \$2.25  
Also have booklets put out by American Begonia Society--Box 2544, Los Angeles, Calif.<sup>54</sup>  
REX TUBEROUS, FIBROUS Booklets 15¢ each. Dues to Society \$1.50 per year.

LESLIE WOODRUFF  
FAIRYLAND BEGONIA AND LILY GARDEN  
HARBOR, OREGON

We believe we are doing the largest job of hybridization ever attempted on *Lilium Speciosum* with *Japonicum*, *Auratum*, *Rubellum*, and many other varieties and a lot of crossing on *Henryi*, *Umbellatum*, *Parryi*, *Wilmottiae*, *Princeps-Sulphurgale*, *Rubellum*, *Japonicum*, *Auratum*, *Longiflorum* types Croft included and many other varieties. In the future of these crosses we see a 7 months cut flower season from the field in a wide range of lily flower types and colors and many valuable pot types that will force in as little as 30 days on the bench at 50 degrees. You might figure what it would save the greenhouse industry to cut down by half the time required to force their crops of Easter Lilies in fuel, labor, light, and rush during or just after the Christmas holiday in potting of lilies. We think it is worth the effort and every dollar we can spare is going back into this project. We greatly appreciate your orders and you may rest assured you will be given our best attention. If you are ever out on the Coast Highway 101 just north of California-Oregon State Line please stop and see the work we are doing. Several new hybrids bloomed this year and look very promising.

We will have stock of the following varieties this season:

**AURATUM**--Gold Band (Type) Huge white flower, gold band lengthwise of petals, speckled brown to deep red.

small flowering size 5-7" \$4.00 per 10, \$35.00 per 100

larger flowering size 7-9" \$6.00 per 10, \$55.00 per 100

Extra large flowering size 9" up \$8.00 per 10, \$75.00 per 100

**AURATUM PRAECOX**--First Auratum to bloom. They bloom 3 weeks earlier than the Auratum Type. They force in greenhouse in 60 days at 50 deg. F. \$7.50 per 10.

**AURATUM HARDY FORM**--These were sold to us as an extremely hardy form. They haven't been tested as yet but they should be a wonderful addition to the Auratum Family for the colder climate. They flower at about the same time as Auratum Praecox but earlier than Auratum Type. \$7.50 per 10 bulbs.

**DAURICUM WILSONII**--Late flowering form of *Umbellatum*. They bloom over a long period of time. Wonderful garden lily. 10 for \$3.50

**HENRYI**--Golden *Speciosum*. Excellent, hardy garden lily.

6-7"	\$ 7.00 per 100	\$ 20.00 per case	300 bulbs per case
------	-----------------	-------------------	--------------------

7-8"	\$10.00 per 100	\$ 25.00 per case	250 bulbs per case
------	-----------------	-------------------	--------------------

8-9"	\$15.00 per 100	\$ 30.00 per case	200 bulbs per case
------	-----------------	-------------------	--------------------

9-10"	\$20.00 per 100	\$ 30.00 per case	150 bulbs per case
-------	-----------------	-------------------	--------------------

10-11"	\$25.00 per 100	\$ 25.00 per case	100 bulbs per case
--------	-----------------	-------------------	--------------------

11-15"	\$40.00 per 100		
--------	-----------------	--	--

15-20"	\$60.00 per 100		
--------	-----------------	--	--

**PARDALINUM GIGANTEUM**--Sunset Lily--bright red tips shading to yellow center, spotted. An outstanding garden lily. 10 for \$3.50, \$30.00 per 100

**PARRYI**--One of the first lilies to bloom in the spring. Lovely yellow trumpet lily with outstandingly lovely fragrance not oppressive. 10--\$5.50, \$50. per 100.

**SCENTED SUNSET**--Fragrant *Pardalinum Giganteum* --hybrid between *Parryi* and *Pardalinum Giganteum*. Magnificent Lily hybrid. Flowering size bulbs \$1.00 ea.

**RED X**--Red reflexed lily outward facing, mahogany spots, brilliant addition to lily family. One of our new introductions. 10 for \$7.50

**REGALE HYBRIDS**--more flowers per head than Regale and taller growth.

7-8"	10 for \$2.00	\$15.00 per 100
------	---------------	-----------------

8-9"	10 for \$2.50	\$20.00 per 100
------	---------------	-----------------

9-10"	10 for \$3.50	\$30.00 per 100
-------	---------------	-----------------

10-15"	10 for \$5.00	
--------	---------------	--

"**BEST**"--*Speciosum Magnificum* seedling that we have clone propagated. Flowers are larger, of better color and substance than Rubrums. White ruffled edge on dark pink flowers. First of *Speciosums* to bloom with us. Definitely an outstanding flower and a must for every lily garden and for every florist. Up to 35 blooms per stem. \$2.00 each. 10 for \$15.00.

**SPECIOSUM PUNCTATUM**--Next to flower in *Speciosums* in garden here. They force in 90 days at 50 deg. F. 25% less time than any of the other strains of *Speciosum* we have ever grown and carries a much higher bud count than any other strain from equal size bulbs. *Speciosum Punctatum* was given an Award of Merit at the 1948 Boston Lily Show. \$7.50 per 10 bulbs, \$60.00 per 100.

**SPECIOSUM MELPOMONE**--Slightly darker flowers than Rubrums, higher bud count, longer pedicles--individual flower stems--fine for table decorations.

Small flowering size bulbs 10 for \$5.00

Giant bulbs 10 for \$7.50

SPECIOSUM RUBRUM--Blooming with Speciosum Melpomene after Punctatum we have 3 strains of American Grown Speciosum Rubrum including Peterson's Strain, Red Champion, and Elkton Strain.

5-6"	\$1.50 per 10 bulbs	\$10.00 per 100	\$60.00 per case 600bulbs
6-7"	\$2.00 per 10 bulbs	\$15.00 per 100	\$45.00 per case 300bulbs
7-8"	\$2.50 per 10 bulbs	\$20.00 per 100	\$45.00 per case 225 bulbs
8-9"	\$3.50 per 10 bulbs	\$30.00 per 100	\$54.00 per case 180 bulbs
9-10"	\$4.50 per 10 bulbs	\$40.00 per 100	\$52.00 per case 130 bulbs
10" up	\$5.50 per 10 bulbs	\$50.00 per 100	

TWINKLE--The latest of our Speciosum varieties to flower, though the chromosome count shows they are definitely not a Speciosum but that they are in a class all their own. They have pure white petals with a blotch of carmine in the center of each petal. They are breath takingly beautiful and greatly admired by everyone who sees it. They bloom here around October 15th in the field. In the garden they grow up to 5 feet with 35 blooms per stem most of them being open at one time making a real bouquet from one stem. \$5.00 each.

SPECIOSUM RUBRUM SEEDLINGS--The largest and most varied group of crosses ever grown in this country. About 20,000 bulbs--crosses of about 20 other varieties of lilies on Rubrum and Magnificum have reached flowering size. Some are definitely showing Auratum blood but they are mainly virus free vigorous seedling Rubrum types. They vary in shade from very dark to very light Rubrum types with some Album in the mixture. We are offering them as follows:

Small flowering size 7-8"	for \$5.00 per 10	\$45.00 per 100
Medium flowering size 8-10"	\$7.50 per 10	\$70.00 per 100
Very large giant size bulbs 10" up	\$10.00 per 10	\$95.00 per 100

TAKESIMA--Taller, easily grown Easter Lily, higher bud count, seedling form of Longiflorum Giganteum. Excellent for garden use. \$2.50 per 10 bulbs

UMBELLATUM--Upright bowl shaped lilies in shaded tones resembling Sunset Lily also in orange, yellow and red in mixture only. They bloom outside here for Decoration Day. One of the earliest flowering lily in the garden. Shorter forcing time in greenhouse than most lilies.

Small Flowering size	\$7.00 per 100
Medium "	\$10.00 per 100
Extra Large "	\$15.00 per 100

All above lilies 50 bulbs at 100 rate.

Thank you again for your orders. They are surely appreciated. Please send check with your order. This helps to cut down on the bookwork giving us more time with our hybridizing program and more time to give to filling the orders. We wish each one of you could see the wonderful new hybrid that bloomed for the second time this summer. It is a pink Testaceum with Regale foliage and is a true Regale hybrid intermediate between its two parents. Had some lovely Auratum x Rubellum bloom for the first time this year. Wish it were possible for us to visit all of you but since it isn't please come to see us when you are on the Coast. We are located 4 miles south of Brookings, Oregon and 2 miles north of California-Oregon State Line on Coast Highway 101. We have NO SALESMEN on the road this year so please send your orders directly to us.

Thanks again for your order.

Yours for Better Lilies and Begonias

LESLIE WOODRIFF  
FAIRYLAND BEGONIA AND LILY GARDEN  
HARBOR, OREGON

P.S. We have limited quantities of some lily seed for sale. If interested please write for prices.

PARDALINUM GIGANTEUM x PARRYI x PARRYI--Seed saved from a group of very lovely fragrant hybrids between Parryi and Pardalinum Giganteum recrossed with Parryi to give the finest strain of clear yellow garden lilies that should grow well in the average garden. \$14.00 per oz. \$1.00 per packet
